

February 28, 1974

SENATOR PROUD: You mean that I have to say it publically. Since you had started on a procedure here I have no objection to going on with that unless somebody else does. And then we can, if we get to them we can come back to that list. This is just the list that I have prepared in case you wanted to use it so I'll just withdraw my motion, Mr. President.

PRESIDENT: All right, thank you. Are there objections to withdrawing the motion. Hearing none. So ordered. The motion is withdrawn and we then we. Senator Barnett you are making the suggestion then that we begin at 976, where we left off the other day. With the Chairs understanding that if controversy arises on the bills, we just pass them over, right?

SENATOR BARNETT: That's the way we have been doing it for three days.

PRESIDENT: All right, I wanted that restated so we shall be sure to have that clear. Senator Barnett did you want to be recognized?

SENATOR BARNETT: Mr. President, I'd say that the list, what he's got is about a foot half on us, so if we start around 983 which is a couple down on Jack's list on the right hand side, it's going to make it in agreement with where we left off. We'd start about 983.

PRESIDENT: You want to go to 983. On Senator Proud's list, right. O.K. Senator Barnett let's make sure the Chair understands. You want to go to 987 and then 788 from that point on, right?

SENATOR BARNETT: That is, the thing is they ask if anybody, we have been asking if anybody has an objection to a bill. If they do not then we go forward with the bill, even to the point of explaining it. And then if they have an objection we pass over it, and go on to the next bill. And ..

PRESIDENT: And it's still working.

SENATOR BARNETT: Well, fairly well, I'd like to say it is..The thing of it is they ask...we have been asking if anybody has an objection to a bill. If they do not then we go forward with the bill. Even to the point of explaining it. And then if they have an objection we pass overfit and go on to the next bill. And they are working fairly well.

PRESIDENT: That's very interesting.

SENATOR BARNETT: I'd like to say it that way because you know there's some times we might have made a mistake.

PRESIDENT: Good, hum. Speaker Proud.

SENATOR PROUD: Mr. President, as I said I have no particular objections. I do want to point out to the body however, that there are only so many of us here and there are quite a few missing, and so just because nobody objects doesn't mean at all that that bill is noncontroversial because the Legislator who may have an objection to it may not be in this chamber. But nevertheless, if you wish to proceed as you have been doing, I'm not going to object to it.
